Introduction

Here, we want to improve the user interface compared to the current one. While there are some excellent websites, the user experience on them is poor due to the UI that has been employed. Both the users and the server providers should avoid this. HCI illustrates the relationship between the computer and its user. The user interfaces (UIs) used in this interaction should be intuitive. We have selected the website "selcohr" for our project since it allows users to find jobs. There are several faults across the website, and the user interfaces are hopelessly outdated. From the expert, we were able to gather all the necessary information.

Methodology

To determine the viability of the selcohr.com website, we conducted user research. Users of the website were questioned as part of the research. We asked all the questions on which we hoped to receive feedback during that interview, and we received sufficient answers. Our interviews were performed through Teams meetings because of the epidemic scenario in the nation. An undergraduate and a software engineer were chosen for the job after two people were interviewed. We conducted structured interviews and received prewritten questions. Selected consumers have made purchases from the selcohr.com website, and they have not left nice reviews. We prompted them to perform operations like search jobs, search people, create accounts, and update contact information. They introduced everyone of us.

Employee clicked employee login button, it navigate to employee login page successfully.	---

Flow of All individual interfaces

IT20049140 – Fernando P.T.N.

Home Page

- Using this interface, customers can have a deeper understanding of our complete system.
- This is a Static interface.
- Customers can view the latest vacancies and login or signup for Employee and job seeker
- The Sidebar can use to search easily for jobs and people.
- Here customers can find what job categories and job titles are available in the system by using the above dropdown boxes.
- In addition, added a QR code for receiving Special Notice for mobile.
- In the header, we added a profile view from the user button.

Job Seeker Signup Page

- This interface is a dynamic page
- Customer must enter their details here when registering as a job seeker.
- Customer can enter their details easily because there are not any distracting elements.
- if the customer fills in all those details and clicks the get started button here, all those details will store in the system.
- If the customer already signs up, they can switch by clicking the relevant button and login in.

license Page

- Customers can trust our site by viewing these certificates.
- This is a static interface.
- Customer can view the verification of the license by clicking the relevant link

Employee Home

- Job Seeker can get a clear idea about his SelcorHR profile and functions that he can perform as a job seeker from this page
- Job seeker can view his resume status from this page.
- He can view his profile picture, register date, Expiry and last updated day from resume status area
- Job seeker can navigate easily to resume build page and resume guideline page using the two buttons.
- Job seeker can easily logout from his profile using the logout button.
- And also job seeker can send a message to selcorHR admin using the send a message to selcorHR form.
- Here job seeker can change his password easily using the change my password form
- At the bottom of this interface there is a table that job seeker can easily apply for any job that he preferred.

Employee Profile

- This interface is my dynamic interface. This is the first interface of the resume building part.
- Job seeker can type his preferred industry/s. If he needs to add more industries he can simply click the add more button. So it will add new blank fields to form
- And then he can add preferred job titles like the first field he can add more blank fields using the add more button
- The job seeker can select preferred countries that he is looking to work using the preferred country dropdown list. And he can choose the salary ranges that he is looking using the preferred salary per month drop down.
- After filling the form he can simply click the save & go to next button. It will navigate him in to personal detail section.
- If job seeker wishes to navigate to a section other than personal details he can simply select the section that he want to navigate using skip this step and go to drop down and select go button
- Customer can view their profile by clicking the “View profile” button again.
- And there is also a scrollable job vacancy area that job seeker can view new industry opportunities

Career Resource Page

- Customer can get a idea about how to fill the resume from this page. It provide guidelines to the job seeker how to fill the resume correctly
- This is only a view interface.
- The interface has a sidebar and it has two drop-down boxes.
- Here job seeker can find what are job categories and job titles available in the system by using the above dropdown boxes.
- I used lighter colors to the interface so the job seeker can easily read and understand the steps correctly.
- Highlighted the main topics using light blue color so that job seeker can find each main topic without any delay.

IT20147396 – Peiris B M G

About Us Page

- Customers can get a better idea of our entire system by using this interface.
- This is only a view interface.
- This interface has two navigation bars.
- Customers can enter so many interfaces by using “Job Search, Post Resume, Career Guidance, Search People, Post Job, Contact Us, home, The company, The history, Sri Lankan Employee, Recruitment, Licenses, and Our Clients”.
- There has a sidebar and customers can use it to find mainly jobs and people .
- In addition it has two drop-down boxes.
- Here customers can find what job categories and job titles are available in the system by using the above dropdown boxes.
- At the bottom of this interface are, it has company Mission and Vision.

User Profile Page

- This interface has four crud operations (customers can Add data, Edit data, Delete data, and View data)and this is my dynamic interface.
- Customer must enter their all details here.
- Customer can enter their entire data very clearly because this interface has four main parts of places to include the customer data easily(Personal Customer details, Customer Resident details, Customer Contact details & Professional details, Upload Customer photo & CV).
- if the customer fills in all those details and clicks the save button here, all those details will store in the system.
- The customer can enter the resume read page by clicking the “have you read the resume” button.
- Customer can view their profile by clicking the “View profile” button again. Customers can enter so many interfaces by using a “Home, My Resume Manager, Preferences, Personal details, Travel document, Working experience, Educational qualifications, Professional qualifications, Language proficiency, and Other information, Log out, and Save”.

finalize the project report	100%	05/11/2022	2

Future Work

An online job search website is selcohr.com. There, we revised the pages we had chosen. There are numerous additional pages, though, where the user experience might need some improvement. Because of this, we intend to make those web pages more user-friendly. If a website is more user-friendly, it will draw more visitors and offer better services to those visitors. clients who currently access this website. Due to the lack of time various adjustments, tests and experiments were allowed for the future. Future work involves a more profound analysis of specific mechanisms, new suggestions for trying multiple methods, or just curiosity. We have finished the website design and discussed with the customer the problems of our project.

Online RESUME With SelcorHR!

Career Resources

GUIDELINES TO BUILD YOUR RESUME IN SELCORHR PORTAL

Dear Job Seeker,
Our aim is to find you a most suitable and rewarding job!

To achieve it, building your resume professionally is the most vital first step. A detailed, well presented resume with accurate information stands a greater chance of attracting prospective employers.

Remember, Employer overseas doesn't see you. It is your resume that is going to make him interested in meeting and interviewing you.
Help us to help you. Read these guidelines carefully.

General Rules

- Avoid making spelling mistakes
- Use capitalizations properly and intelligently - Eg. Start the sentence with a capital letter. First letter of proper nouns must be in capital letters (Colombo, Kandy, Pioneer Hardware etc). Also in sentences such as Diploma in Computer Applications or Institute of Management Studies etc.
- Use punctuation marks properly - such as full stop (.), comma (,), space () etc.
- Do not overdo. Use words sensibly, especially in the 'Main Duties and Responsibilities' area of Working Experience part. Provide important information only preferably line by line rather than paragraph form. DO NOT write too much. Remember - today's managers do not have time to read stories.

Now, let's get on with building your resume. You can keep this window minimized in your desktop so that you can view whenever you need help.
The Resume Builder has following sections. If you want to know about a particular section, click the relevant title. If you do not have sufficient time to complete all the sections of the resume, you can save the completed section and come back again to complete the balance.

- Preferences
- Personal Details
- Travel and other Identification Details
- Work Experience
- Academic / Educational Qualifications
- Professional / Technical Qualifications
- Language Proficiency
- Other Information

Preferences

Here you can fill in your personal preferences such as preferred jobs, countries, salary etc. Try to be as accurate as possible. These information are used as search criteria by potential employers.

Personal Details

Fill in the required information. Ensure the contact details are correct - especially telephone numbers. If your photo is saved in the computer you working on, you can browse and upload.

Travel and Other Identification Details

Fill in the required information. If you have more than one passport or driving license, click 'add more' and fill in. Type of Driving License are such as Light, Heavy Vehicle, Motor Bicycle etc. If you are applying as a DRIVER, mention all the Driving Licenses even they are expired. Specify whether you possess the original license or not.

Your resume is accessible to hundreds of employers around the world.

Apply for hundreds of jobs at a click of a Mouse

Create and maintain your resume online

Work Experience

We have provided space to fill any number of employments. If you have only one experience, press [Save & Go to Next] button and proceed. If you have more than one experience, press [Add More] and add the next experience.

Example : From Jan 2007 - Jan 2008
From Feb 2006 - Jan 2007
From Mar 2005 - Feb 2006

Fill in the position you held, working period from Month/Year to Month/Year. If the position is not listed, select [New Title]. Add the name, city and country of each Employer. Give brief description of the employer and select the appropriate industry of the Employer. If the industry is not listed, select [New Industry] and type in the industry.

Academic / Educational Qualification

Fill in your highest Academic/Educational qualification.

Type the Name, Place and Country of the educational institution. If the highest qualification is above Higher Secondary (such as Diploma, Degree), type the title of qualification (eg. B. Sc.) and mention the duration of the course, subjects covered and the date such qualification was awarded.

Professional / Technical Qualification

If you possess additional Professional/ Technical Qualifications, fill in relevant information. You can add as many qualification as you have.

Language Proficiency

Fill in language skills, because it is important as you are applying for job abroad. Indicate your mother tongue first. Then other languages starting with ENGLISH. Indicate whether EXCELLENT, VERY GOOD, GOOD or BASIC. Try to be objective while evaluating - Reading, Writing and Speaking abilities, even if basic.

Other Information

This may include your achievements, publications, participation in seminars, conferences, other skills such as computer skills, artistic skills, social skills, organizational skills, technical skills, literary, sports and other skills focusing on points and values the employer may be interested in. Yet again, Once finished, view your Resume. Take a nice look . Does it look good?

If YES - Go ahead and submit to SelcorHR and wait for the telephone to ring with the good news!

If NO - Go back and do the necessary changes.

Good luck!

[OUR CLIENTS](#)

Having a company populated with bright, enthusiastic, talented, hard-working & Ethical employees would be a blessing to any Business

P. S. Selvaratnam
 Chairman / Managing Director
 SelcoHR

Human Resources are the most precious asset of any organization – be it a small wayside grocery or a multi-million dollar corporation. Success of any organization, hence, undoubtedly depends on the efficiency and commitment of its employees. Choosing the most suitable person for any given job, therefore, has become a single most concern and responsibility of an employer. This tremendous pressure of sourcing and recruiting the right person for the right job is largely reduced, if not eliminated by, first of all, choosing the right human resources provider to do this job for you – professionally and efficiently as you would expect.

That's where we come in. We, SelcoHR (Selco Continental Pvt. Ltd.), an overseas placement company, duly licensed by the Sri Lanka Bureau of Foreign Employment, are geared to provide you an efficient personnel recruitment service that you would hate to miss. Being in the business for more than a decade and thus serving hundreds highly satisfied global clients, we clearly understand your expectations and hence are in a position to effectively cater your HR needs. At SelcoHR, client's satisfaction comes first simply because we firmly believe in strong long term business bonds than short term gains.

Our highly efficient and dedicated team of staff are constantly prepared to fulfill virtually all your human resource requirements.

Our promise is simple.
 Try us once.
 We will ensure that you will cherish your decision
 for many years to come.

Email: md@selcohr.com Mobile: +94 777 364 885

MISSION

To source and effect, with due diligence and care, highly suitable and rewarding overseas employment for aspiring Sri Lankans thus enhancing the quality of their lives.

To serve the host countries in efficient increase of their productivity by offering high quality Sri Lankan Manpower.

To serve our motherland by helping to reduce unemployment and contributing towards its national wealth by increase of attendant foreign exchange inflow.

To encourage team work and motivation amongst the employees and provide for training and career development.
 To generate adequate return on capital.

VISION

To be the leading Human Resources Provider in Sri Lanka through constant pursuit of superior levels of service to our global clients.

Sri Lankan employee

Our top employees

Sri Lanka, with a literacy rate of 89%, one of the highest in the Asian continent, has the ability to supply almost all kind of manpower.

Every year, thousands of young men and women graduate from various universities, technical colleges and vocational training institutes throughout the country. Adding to the ranks of local workforce are thousands of Sri Lankans who, having gained rich experience overseas, return home after completing their assignments. They are re-employable to the great advantage of prospective employers. Thus Sri Lanka is a treasure trove of highly efficient workforce.

Sri Lankans are by nature intelligent, industrious, hard-working, sincere and most importantly fast learners. Living in a multi-ethnic and multi-religious environment makes it easy for them to adapt to any overseas work environment where multi-national workforce is most prevalent.

These are the values that make the ever growing number of overseas employers to direct their attention to Sri Lanka to fulfill their manpower requirements, so much so that migrant workers have become one of the highest foreign exchange earners for Sri Lanka.
